

Date	Time	Place	Speaker	Title
9/15/2021	12:00 PM	Zoom	Jason Vevea: UW-Neuroscience	Regulation of Activity-Dependent Synaptic Vesicle Docking
9/22/2021	12:00 PM	Zoom	David Ehrlich: UW-Integrative Biology	Motor Control and Adaptation by the Fish Cerebellum
9/29/2021	12:00 PM	Zoom	Greg Schwartz: Northwestern University	Functional Divergence at the Mouse Retinal Bipolar Cell Terminal
10/6/2021	12:00 PM	Zoom	Claire Richardson: UW-Genetics	How Ageless Neurons Suspend Dendrite Growth
10/13/2021	12:00 PM	Zoom	Vanessa Ruta: Rockefeller University	Sensing Scents: The Structural and Circuit Mechanisms of Olfaction
10/20/2021	12:00 PM	Zoom	Debra Silver: Duke University	Wearing Many Hats: Post-transcriptional Control of Cortical Development
10/27/2021	12:00 PM	Zoom	Juan Song: University of North Carolina - Chapel Hill	Dissecting Neural Circuits for Adult Hippocampal Neurogenesis
11/3/2021	12:00 PM	Zoom	Lucie Delemote: KTH Royal Inst. of Technology - Stockholm	Molecular Insights into the Energetic Basis of HCN Channel Activation and Gating
12/1/2021	12:00 PM	Zoom	Tirin Moore: Stanford University	Shared Neural Circuitry of Visually Guided Behavior and Visual Cognition
12/8/2021	12:00 PM	Zoom	Byoungsoon Kim: UW-Neuroscience	Novel freely moving monkey framework for the study of naturalistic behaviors
12/15/2021	12:00 PM	Zoom	Massimo Scanziani: University of California - San Francisco	Context in Visual Cortex
